EDUCATION

Vellore Institute of Technology
Bachelor of Technology in **Computer Science Engineering** (8.85)

Vellore, India
July 2021 – June 2025

EXPERIENCE

Firstsource Solutions Pvt. Ltd.
Software Engineer – AI & Automation
Chennai, India
Jul 2025 – Present

- **MCI (Multi Channel Insights):** Engineered backend AI services for an enterprise multi-channel agent platform; built a **Token Cost Estimation module** to monitor and optimise LLM API usage costs across agents, enabling data-driven budget control.
- **Disability Copilot:** Performed advanced **prompt engineering** for a healthcare AI agent that generates real-time **clinical suggestions for physicians** before patient consultations, improving diagnostic preparation and care quality for a medical organisation.
- **ETS (Educational Testing Service):** Owned the **Entity Module** within a global **AI email automation pipeline** for ETS – an international educational assessment organisation; handled entity extraction, classification, and intelligent email routing at scale. Resolved **GDPR compliance tickets** ensuring regulatory adherence.
- **IVR Automation (AWS Connect):** Designed and implemented an end-to-end **IVR automation solution using AWS Connect**, configuring contact flows, Lambda integrations, and dynamic prompts to reduce average handle time and improve customer self-service resolution.
- **QC Auditor:** Built the backend for an **AI document auditing agent** that autonomously audits **loan documents** – extracting entities, flagging discrepancies, and generating structured audit reports, significantly reducing manual review effort on high-volume financial files.
- **N8N Workflow Automation:** Completed N8N platform training and **designed multiple production-grade automation workflows** integrating APIs, databases, and AI services to eliminate manual handoffs across operational processes.

The Hackett Group Pvt. Ltd.
Web Development Intern
Remote
June 2024 – July 2024

- Contributed to enterprise web development tasks, supporting consulting deliverables using modern frontend technologies.

PROJECTS

Crowdfunding Platform | React, Node.js, Express, PostgreSQL, Azure, Python Chatbot
GitHub

- Engineered a full-stack **microservice-based crowdfunding platform** for NGOs, donors, and fundraisers, enabling secure campaign creation, donation tracking, and transparent fund flows.
- Designed and integrated **PostgreSQL-backed services** (User, Campaign, Transaction, Notification) with Express APIs, JWT authentication, and **Razorpay payment gateway**, ensuring seamless and secure financial operations.
- Deployed containerized services on **Azure App Services**, automated pipelines via **GitHub Actions**, and set up CI/CD with testing, linting, and issue tracking (Jira).
- Built a **Python chatbot (Flask + Rasa)** to assist donors and fundraisers with FAQs, improving support efficiency by 40%, while enabling campaign reports (PDF/CSV) for transparency.
- Delivered a modular React UI with donor/fundraiser/admin portals, dashboards, and real-time progress updates, boosting usability and engagement by 50%.

Resource Management System | Node.js, React.js, Express.js, PHPMyAdmin, Chart.js
GitHub

- Built a full-stack **employee time-tracking and resource allocation system** to monitor project workloads, featuring role-based access and real-time data updates across teams.
- Integrated **Chart.js interactive dashboards** for visualising time distribution patterns, enabling managers to identify bottlenecks and optimise resource planning.

Fitness Tracker Web App | MERN Stack, REST API, JWT
Live

- MERN stack application with real-time activity tracking, **BMI calculations**, personalised insights, and user authentication via a secure RESTful API.

SKILLS

Languages: Java, JavaScript, Python, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Chart.js, Material-UI, REST APIs

Databases: MongoDB, PostgreSQL, MySQL, PHPMyAdmin

AI & Automation: LLM Integration, Prompt Engineering, N8N Workflow Automation, AWS Connect (IVR), AI Agent Development

Cloud & DevOps: AWS (S3, Lambda), Azure App Services, Docker, GitHub Actions, CI/CD

Tools & Platforms: Postman, JWT, Git, Jira, WordPress, Visual Studio Code, Chrome DevTools

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** MERN Full Stack | Resource Management System | WordPress Developer Google Gen Ai Professional Claude 101
- **ACHIEVEMENTS:**Secured **Rank 103** in VITEEE entrance examination, awarded a **25% scholarship seat waiver**.
